DISCUSSION OF THE PRIOR ART/REASONS FOR ALLOWANCE

1. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:

Yamamoto et al. discloses section comprising a housing 6 having a bottom wall, a pair of upstanding sidewalls, an upstanding rear wall and an open front, a multiplicity of signal ports mounted in said rear wall, an I/O circuit board 10 supported on the bottom wall, said board having a front edge, a first electrical connector 20 mounted to said board adjacent to the from edge thereof, said first connecter necessarily having a multiplicity of contacts wherein the housing slidably receives a tray 26 through the open front thereof wherein the tray includes a pan having a bottom wall, a pair of upstanding side walls and a upstanding front wall, a printed circuit motherboard 30 supported on the bottom wall of the pan, said motherboard having a rear edge and carrying some active components and a second connector 40 mounted to the motherboard adjacent to the rear edge thereof, said second connector having a multiplicity of contacts that are mateable with the contacts of the first connector. However said I/O circuit board is a CPU so is does not only carry inactive components and cannot be considered a passive section. The configuration disclosed is not that of a telecommunication switch. Khan et al. discloses a computer system with a motherboard comprising two separate boards.

Marler, Hinds, Chen, Hipp et al., Shen et al., Georgopulos et al., Ravid, Burroughs et al., Albertine et al., Reimer disclose various types of electronic modules wherein one component is slidably electrically connected to another component.

Art Unit: 2841

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Phuong T. Vu whose telephone number is (571) 272-2111. The examiner can normally be reached on Mon. & Tues., 7:30 AM - 4:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kammie Cuneo can be reached on (571) 272-1957. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
